github.com/DarianYane - # PYTHON # DJANGO # BACKEND

Junior Python Developer, MBA and Bachelor's Degree in Economics.

WHY SHOULD YOU HIRE ME?

I WILL BE PRODUCTIVE FROM DAY ONE !

My knowledge of **Python, Django, Bootstrap**, Statistics, Economics and Finance, added to my extensive work experience in all types of companies and teams, makes my incorporation to any company or team extremely fluid and effective. In addition, I can work perfectly well in a group or autonomously.

EDUCATION

2022

PYTHON, CODERHOUSE

Python course where you learn to program with functions, POO, CBV and Django.

2020

MASTER'S DEGREE IN BUSINESS ADMINISTRATION (MBA), UADE

Distinction: MAGNA CUM LAUDE

Average: 8,68 (2nd best course average)

SQL, Pandas, Numpy

DATA VISUALIZATION

Matplotlib

WEB DEVELOPMENT

CSS, HTML

OTHERS

GIT, EXCEL (with MACROS), POWER
QUERY, POWER BI

LANGUAGES

ADVANCED ENGLISH, ADVANCED PORTUGUESE, NATIVE SPANISH

PROJECTS

MY PORTFOLIO

Project developed in Django to get my first job. It includes my projects, an "About me" section, and a contact form.

NUTRIPLAN

Nutriplan allows you to generate personalized diets quickly. In addition, its randomized food selection system prevents the person from abandoning the diet because it is monotonous. A new diet can be generated every week!

FAST READING

This application allows you to format a text to make it faster to read. This is achieved by giving "bold" formatting to the first 2 letters of each word.

TRAVEL BLOG

Final project of the Python course at Coderhouse. It includes a CRUD and a user management system.
